

Environmental Science: A Chemistry Perspective
CHM315 Fall 2007
Problem Set #2

Due: Sept. 5, 2007

Reading: pp. 36-61, 66-93

Online Problems: see Online Homework #2 (online.ksu.edu)

Additional Problems: Chap. 1: 15 (end of chapter questions)

ALSO:

Was it *originally* ethical for the Dupont Chemical Company to develop and market chlorofluorocarbon compounds as refrigerants for widespread public use? Use the six-step process outlined in class to arrive at and to justify your answer.
