Service evaluation: (worth 10 pts) 6

Journal entries

You provided very few of these, although they seem fairly reflective.

Supervisor eval.

Supervisor did not provide evaluation of the project.

Project design and execution

You chose a very important issue for the age group of the girls you were working with, and the idea of looking at and discussing ads with them was a good one. It seems that you were not able to get them to speak much about the issue, so it may not have been as helpful to them as it might have been had they felt more comfortable, although I don't have concrete suggestions on how to improve that.

Presentation:(worth 10 pts) 7

Description of project

Good. I would have liked to see more about what the girls actually said. Not clear how much time you actually devoted to this project.

Connections with course material

You draw connections with Bartky on women's fixation with beauty and how that harms them and may cause eating disorders. I think this was a well chosen connection. You also quote de Beauvoir on the construction of otherness of women. This connection is not well developed.

Class discussion

The discussion in class was very good. Clearly body image is a very important topic for young women, including your classmates.

Final Write-up: (worth 20 pts) 15

Description of project

The description of the project had a number of grammatical or typo mistakes. It did not include much specific information about what was said.
