

Written Reviews (), Presentations (Reviews, ___ pts)

A review that meets expectations (3) will have the following characteristics:

- shows clear understanding of other applications of categorical methods
- demonstrates knowledge of other methods
- offers general suggestions for improvement, or relatively straightforward changes to methodology
- for presentations, active participation

Reviews much above expectations (1) will have the following characteristics:

- demonstrates critical thinking about the application of categorical methods by identifying alternative analyses, raising questions that might require a change in methodology, suggesting additional analyses that would improve the project, etcetera
- offers suggestions to presenters that will likely increase their paper grade

Reviews well below expectations (5) will have the following characteristics:

- does not meet several of the “meets expectations” criteria

Written Reviews due _____, in class

Typical length will be about 400-600 words

Bring ___ printed copies of the reviews the last day of class
