

Group Instructions

Click on the link above GROUPS to access your group and transfer your file to your classmates to be reviewed.

By Sunday March 31st you should have your annotated bibliography loaded for your classmates to look at and give you feedback by April 7th. You will also review theirs and give them feedback on their annotated bibliography by April 7th.

Instructions for your bibliography can be found on your syllabus. A rubric that you and your classmates will use for evaluating and giving feedback on the bibliographies can be found in the Rubrics and Models section. A model of an A bibliography can also be found there. Let me know if you have any questions.

This assignment cannot be turned in late because your classmate will be counting on you. This activity is to help you get feedback so that you can improve your work and hopefully get an A on the assignment. It is due by the 31st (10 pts.) and the evaluation on the 7th (25 pts.).

Let me know if you have any questions. I will be able to observe all the groups' interactions.
