CE 582

Nov. 2 Guest Speaker (ITE Meeting)

[+2]

The speaker talked about the safety on highway and methods to improve it. He knew the topic well because he was doing a lot of reasearch on it. He presented to topic very well because he knew the topic & he know how to present the data. This is the best speaker that I have seen because he did not look at the powerpoint screen a lot he focused more on the audience. Therefore it was a great presentation.

Food was not that great we should go back to pizza.
